

Jason McMillan, AS Biotechnology

Senior Lab Technician, Northeast Biomanufacturing Center and Collaborative (NBC2),
New York Hub

Jason has an A.S. in Biotechnology from Finger Lakes Community College. While at Finger Lakes, Jason was a member of Phi Theta Kappa, the International Honor Society of the Two Year College. During this time he served as president from 2005-2006. He also worked in the laboratory as a student worker where he received the Outstanding Student Worker Award for the Science/Technology Department. He is currently pursuing his B.A. in Adolescent Education Biology 7-12 at Keuka College. Before joining Northeast Biomanufacturing Center and Collaborative in 2007, Jason worked at Finger Lakes Community College as a laboratory technician. Through his experiences as a student at FLCC, entry-level laboratory technician, and now Senior Technician of the New York Hub of NBC2, Jason has extensive experience with skills-based biotechnology and biomanufacturing curricula. With an extensive industry partnership, NBC2 relies on standards-driven programming that will help prepare a 21st century biotechnology and biomanufacturing workforce.
